4.0 Reel Setup

The Gold Standard spinning reel is ambidextrous and the screw-in handle can be installed for left or right hand retrieve. First, hold the rotor to prevent it from turning while the handle is installed. For left hand retrieve, screw the handle into the left side of the reel counterclockwise until snug. For right hand retrieve, remove the cap from the right side of the reel and insert the handle threads. Screw the handle into the right side of the reel clockwise until snug. Do not overtighten. Install the cap on the opposite side from the handle by turning clockwise to tighten.

5.0 Reel Use

Caution: Operation of the Gold Standard spinning reel is at the user's own risk. Keeps fingers away from the line, rotor and bail while fighting a fish.

The Gold Standard Spinning reel is designed for left- or right-hand retrieve. Use an arbor knot to attach the line to the spool. If backing line is used, fill the spool 1/3 with backing and 2/3 with the monofilament or braided line of your choice.

The reel is equipped with an on/off anti-reverse switch operated by turning the switch to the left to disengage the anti-reverse mechanism and to the right to engage it.

Increase drag by turning the drag knob clockwise. The carbon fiber drag discs will wear in during the first few uses of the reel, so drag force will improve over time.

6.0 Warranty and Repairs

BC Reel Co.TM provides a limited 1 Year Warranty on all Gold Standard Spinning reels.

BC Reel Co.TM warrants to the original purchaser that this product will be free from non-conformities in material or workmanship for the period of one year from the date of purchase. Please keep your receipt (Amazon invoice) for all warranty claims. To request warranty repairs (or non-warranty service) email bcreelco@gmail.com with pictures and a short description of the issue. For the period indicated, BC Reel Co.TM will, at its option, repair or replace and return the covered items found to be defective in material or workmanship at no charge except for shipping cost. BC Reel Co.TM will have no other obligation and will not be liable for incidental or consequential damages. This Warranty does not cover damage by addition or alteration of the product, accidental damage or loss, abuse, failure to provide reasonable and necessary maintenance or normal expected wear. Damage that is determined to be of this nature will be repaired at the consumer's expense.

BC Reel Co.TM Cares

This manual has been provided in a digital format to reduce waste. If printing this manual, remember to check for newer revisions to get the most up-to-date information available. Thank you for purchasing a BC Reel Co.TM fishing reel. Tight lines, eh.
